- i. Highways - Councillors discuss developments of local road traffic issues:

Councillor Slatcher reported that he had not yet received a response from David Gradwell regarding funding for the safety assessment of speed signs, despite further road traffic collisions having occurred on Rushey Lane in recent weeks. Members noted that any works relating to the maintenance and future layout of the road remain dependent upon decisions

associated with the Boningale Homes development, as these may require alterations to the road structure.

Councillor Haines reported that she had again contacted Shropshire Highways regarding the condition of Woodhouse Lane. A response had been received; however, it did not address the concerns raised in the original complaint, particularly regarding the lack of action and communication. Councillor Haines subsequently requested a further response addressing the specific issues outlined in the initial complaint.

The Council is currently awaiting a response from Shropshire Highways under the Stage 2 complaints process. Members noted that no improvement works have yet been undertaken on Woodhouse Lane and that the condition of the road continues to deteriorate.

Pathways – Members noted concerns raised by residents regarding the resurfacing of the pathway, specifically that works have not extended from the brook up to the top of Woodhouse Lane. It was reported that there are currently no plans to complete this section, as the gravel had been reallocated elsewhere due to delays in the works.

Members also noted that the footbridge across the brook has been replaced, with positive results.
